

OFFICE MEMORANDUM NO. 071
Series of 2023

TO : ADMINISTRATIVE AND FINANCE DIVISION MANAGER
ENGINEERING AND OPERATIONS DIVISION MANAGER
SECTION CHIEFS
ALL NIA PERSONNEL

SUBJECT : CONDUCT OF YEARLY COMPUTER AND PRINTER PREVENTIVE MAINTENANCE

In accordance with Memorandum Circular No. 29, Series of 2017, regarding the Preventive Maintenance of Computer Hardware and Related IT Equipment in the National Irrigation Administration, all concerned sections are hereby informed that the IT Unit will conduct the annual Preventive Maintenance (PM) of all computers and printers, following a quarterly schedule per section, **effective January 9, 2024**. This initiative aims to ensure the reliability, optimize the performance, and extend the service life of all ICT equipment, in compliance with ISO standards on equipment maintenance, documentation, and continual improvement.

I. REQUIREMENTS FROM END USERS

1. All computers and printers must be available and ready on the scheduled date of Preventive Maintenance.
2. End users must provide the system password to the IT Technician.
3. If the end user is on leave, the password must be endorsed to the immediate supervisor or submitted to the IT Unit in advance.
4. No files will be deleted, altered, or removed by the IT Unit during PM.
5. All users must save and close open documents before maintenance begins.
6. Users must prepare their personally issued external hard drive for data backup.

II. SCOPE OF PREVENTIVE MAINTENANCE

1. SYSTEM TUNE-UP
 - Fixing computer errors
 - Run Defragmentation
 - Run Check Disk / Error Checking
2. DATA BACKUP
 - Backup will be performed by the end user during maintenance
 - Backup saved to the personally issued external hard drive
 - IT may assist if needed
3. DISK CLEANUP
 - Run Disk Cleanup
 - Delete temporary system files (no user files included)
4. UNINSTALLING PROGRAMS
 - Remove programs and apps that are not work-related

5. CLEANING

- External cleaning of computer hardware

6. UPGRADE / REPLACEMENT OF COMPONENTS

- Replacement of CMOS battery, hard drive, network card, graphics card, RAM
- Updating installed software

7. OPERATING SYSTEM UPDATE

- Run and install Windows updates

8. DRIVERS

- Check and install updates for GPU and peripheral drivers

9. ANTI-VIRUS

- Run antivirus scan
- Install antivirus updates

III. PRINTER SCOPE OF MAINTENANCE

1. External and maintenance box cleaning of printer components
2. Inspection of rollers, toner or cartridges and print heads
3. Print quality testing, nozzle check, and calibration
4. Checking for paper feed issues and jam history
5. Check for firmware updates
6. Testing USB/network connectivity and shared printer configuration

IV. SCHEDULE AND DOCUMENTATION

- The Preventive Maintenance Schedule and Checklist Forms are attached.
- All PM records will be filed and maintained in compliance with ISO documentation and audit requirements.

Cooperation from all personnel is requested to ensure the timely and ISO-compliant conduct of the Preventive Maintenance.

For strict compliance.
