ENGR. MARK CLOYD G.
Acting Division Manager
National Irrigation Administration (NIA), Albay

Dear Engr. Mark Cloyd:

I am writing to express my sincere interest in applying for the position of **Research Assistant** at the National Irrigation Administration (NIA). As a Licensed Professional Teacher and a Bachelor of Secondary Education major in English graduate from Partido State University, where I graduated Cum Laude, I am eager to contribute my communication, analytical, organizational, and research-related skills to your esteemed office.

My academic training and professional experiences have equipped me with skills relevant to research assistance, particularly in gathering and organizing information, preparing documents, maintaining accurate records, and communicating findings clearly. During my teaching internship, I gained valuable experience in preparing instructional materials and reports, organizing documents, coordinating activities, and performing administrative tasks with accuracy and efficiency. In addition, my five months of experience as a Customer Service Representative strengthened my ability to communicate effectively, address concerns professionally, maintain accurate records, manage multiple responsibilities, and work efficiently under pressure.

I am proficient in Microsoft Office applications, detail-oriented, and capable of organizing information systematically while ensuring accuracy and confidentiality. My background in education has also developed my skills in reading, writing, analyzing information, and presenting ideas clearly. I am a fast learner who is willing to acquire new knowledge and techniques to support research activities, data management, report preparation, and other responsibilities of the position. I am committed to performing my duties with integrity, professionalism, and dedication in support of the agency's programs and objectives.

I have enclosed my application documents for your review and consideration. I would welcome the opportunity to discuss how my qualifications, experiences, and willingness to learn can contribute to the research activities and objectives of the National Irrigation Administration. Thank you for your time and consideration. I look forward to the opportunity to become part of your organization.

Respectfully yours,

Maeredelle P. Pagal
