PROFESSION

Registered Electrical Engineer, BOSH SO1, COSH SO2, EIM NC II

EDUCATION

Bicol University – College of Engineering **Legazpi City**
Bachelor of Science in Electrical Engineering

- Cum Laude
- Academic Scholar 2019-2022
- Bicol University Gawad Awardee 2019-2020
- Reserve Officers' Training Corps (ROTC) Bicol University
- Attended the 8th Bicol Electrician Summit 2021, Asia Virtual Academy Spring Forum 2022 and IIEE Abu Dhabi 7th Technical Webinar on Construction Management
- Participated in Basic Occupational Safety and Health Training (SO1), Construction Occupational Safety and Health Training (SO2) and Safety Management Seminar 2023

ACHIEVEMENTS

- Academic Achiever Primary and Valedictorian (Grade 1-6)
- Academic Achiever Secondary JHS "Second Honor" (Grade 7-10)
- Academic Achiever Secondary SHS "With High Honors" (Grade 11-12)
- Academic Achiever Tertiary Dean's Lister (1st year)
- Academic Achiever Tertiary Dean's Lister (2nd year)
- Academic Achiever Tertiary President's Lister (2nd year)
- Academic Achiever Tertiary Dean's Lister (3rd year)
- Academic Achiever Tertiary Cum Laude (4th year)
- Supreme Student Government Officer (Grade 9-10)
- Supreme Pupil Government Officer (Elementary)
- School Publication Sportswriter (SHS)

EXPERIENCES

On - the - Job Training at Department of Environment and Natural Resources 2018

- Field surveys, data gathering, and site measurements for environmental assessment projects.
- Collaborated with engineers during site evaluations and infrastructure assessments.
- Applied electrical safety standards in all field and facility operations
- Assisted in diagnosing electrical faults and implementing corrective actions.
- Assisted in technical documentation, including reports on electrical inspections and maintenance activities.

On - the - Job Training at Diocese of Legazpi, Legazpi City, Albay 2022

- Executed electrical wiring installations, including Electrical lay outing, cable tray setup, and utility box fabrication.
- Performed cable pulling, installation of outlets, switches, and lighting systems.
- Fabricated and installed PVC conduits, plastic molding, and cable management systems.
- Assisted in transformer banking, circuit tracing, and electrical system layout verification.
- Conducted material inventory, quantity estimation, and resource planning.
- Applied field construction techniques include wall routing, finishing, and basic structural integration.
- Demonstrated strong time management, teamwork, and adherence to safety and quality standards.

Electrical Design and Construction – Midrise and residential 2023

- Assisted in electrical design, layout planning, and system installation for mid-rise and residential buildings.
- Prepared and interpreted electrical plans, load schedules, and wiring diagrams.
- Supervised and supported installation of wiring systems, panels, lighting, and power distribution.
- Ensured compliance with Philippine Electrical Code (PEC), safety standards, and project specifications.
- Coordinated with site teams for project execution, progress monitoring, and quality control.

Solarays Engineering Services 2023-2024

- Installed and commissioned solar PV systems, including panel mounting, wiring, and inverter setup.
- Performed electrical wiring, system integration, and troubleshooting for solar and low-voltage systems.
- Installed and configured CCTV systems, including cabling, camera setup, and monitoring integration.
- Supported installation and maintenance of air conditioning systems, including electrical connections and testing.
- Conducted site inspections, load assessments, and system testing to ensure performance and safety compliance.
- Applied electrical standards, safety protocols, and quality control in all installations.

Electrical Project Engineer at Alaska Milk Corporation 2024-2026

- Key member of the Project Management Team, delivering multidisciplinary projects across electrical, mechanical, and civil systems.
- Led and supported end-to-end project execution from design, planning, and procurement to installation, commissioning, and turnover.
- Implemented and upgraded automation and control systems, including PLC, RIO, MCC, and boiler management systems.
- Managed critical infrastructure projects such as transformer installations, lighting retrofits, and production machine integration.
- Spearheaded plantwide system improvements, including CCTV/network upgrades and UV water treatment systems.
- Delivered fire safety systems (FDAS & Fire Protection) and established a Fire Command Center to enhance safety compliance.
- Drove process optimization and energy efficiency initiatives, including steam recovery projects.

- Coordinated with cross-functional teams to ensure on-time delivery, quality assurance, and safety compliance.
- Developed and tracked project schedules, budgets, and resource allocation to ensure on-time and cost-effective delivery.
- Conducted risk assessments, progress monitoring, and issue resolution to maintain project performance.
- Ensured compliance with safety standards, electrical codes (PEC), and quality requirements.
- Led site inspections, testing, and commissioning activities for industrial systems.
- Prepared technical reports, project documentation, and status updates for management.

TRAININGS &CCERTIFICATIONS

- Basic Life Support (ROTC)
- Basic Occupational Safety and Health (BOSH SO1)
- Construction Occupational Safety and Health (COSH)
- ISO 14001:2015 – Environmental Management System
- ISO 45001:2018 – Occupational Health and Safety Management System
- Hazard and Operability Study (HAZOP)
- Fire Detection and Alarm System (FDAS)
- Confined Space Entry
- Scissor Lift Operation
- Steam Recovery System
- Boiler Management System
- Energy Management System
- Project Management
- Safe at Work Training

PERSONAL SKILLS

Core Skills

- Project Planning & Scheduling
- Scope & Risk Management
- Budgeting & Cost Control
- Quality Assurance & Compliance
- Procurement & Vendor Coordination
- Stakeholder & Team Management
- Project Documentation & Reporting
- Installation, Testing & Commissioning Engineering projects

Technical Skills

- Electrical Systems Installation & Maintenance
- Automation & Control Systems
- AutoCAD & Engineering Drawings and Interpretation
- Troubleshooting & System Optimization
- Industrial Safety & Code Compliance (PEC, ISO)

Professional Skills

- Leadership & Team Coordination
- Decision-Making & Critical Thinking
- Technical & Business Communication
- Time Management & Multitasking
- Microsoft Office (Excel, Word, PowerPoint)
